

CDR - concentrate

Emulsion Remover

GENERAL DESCRIPTION

CDR - Concentrate is a biodegradable concentrated decoating agent, when in dilution form will quickly and economically remove all types of photo-polymer, diazo, or capillary film on all types of mesh. Dilute up to 50:1 with water.

ADVANTAGES

- Easy to use.
- Safe on all types of mesh.
- Will not crystallize or plug rinse nozzles on automated equipment.
- Biodegradable.
- Drain acceptable to a treatment plant, after dilution, when used as directed.
- Non-Photochemically Reactive.

Quick Tip:

Use an emulsion remover that has plenty strength to break down the emulsion.

Emulsions, that are not properly broken down, will leave excessive residue on the mesh.

1)After removal of ink, block-out, and tape, apply CDR to a wet screen(both sides).

2. Scrub screen with non-abrasive pad or brush.

3. High pressure rinse - starting at bottom.

Packaging

1 gallon

5 gallon pail

30 gallon drum

55 gallon drum
