

# WORKHORSE SD-10 SERIES

## SCREEN DRYING CABINET

### Overview

Workhorse introduces the SD -10 Screen Drying Cabinet. This unit is designed to eliminate problems associated with the screen preparation process. Problems such as dust and foreign materials caught in the emulsion creating pinholes, the application of block out and additional labor costs to repair these pinholes and imperfections, and inconsistent drying times to name a few. The SD-10 will save you time, money, and improve your overall screen quality. It's versatility to hold a variety of screen sizes, function as a perfect stand for most bench model exposure units and affordable price, make it a welcome addition to any print shop.

#### FEATURES:

- 10 Screen Capacity from 20 x 24" up to 25 x 36"
