SILEXTREME™

High-performance silicone screenprinting inks

SILEXTREME™ Inks have a high degree of stretch and durability in the wash process. They have a low cure temperature making it ideal for *100% polyester performance fabrics, wetsuits, swimsuits and *sublimated polyester fabrics.

Possesses superb adhesion and extreme elasticity; simply mix SILEXTREME™ base with the toner and add catalyst before printing.

The Series includes: 31 Easy to use Athletic Toners, Special Effect: Silver Shimmer, Gold Shimmer, Rich Gold Metallic toners, Matte Base, Matte Elasti-White, HD Clear, Barrier Black and Catalyst.

General features:

- Meets US, EU and Asia Standards
-  Low Temperature Cure
-  PVC Free
- RSL Compliant
-  Athletic Toners
-  Automatic & Manual Presses
- FX** Shimmers & Metallic
-  High Wash Resistance
-  Distinctive Hand
-  Ultra Elongation
-  High Opacity
