

AlbaChem® Vinyl Letter Removing Solvent

Effective Date: May 1, 2013

General Description:

AlbaChem Vinyl Letter Removing Solvent completely removes vinyl letters and residual adhesives from most fabrics. The Yorker spout allows for easy application minimizing waste. Highly effective and fast drying, Vinyl Letter Remover saves you time and money by dramatically reducing "seconds".

Advantages:

- Most powerful adhesive remover.
- Fast Drying
- Leaves no stains or residue.
- None Flammable

Directions for Use:

Use only in a well ventilated area. Shake well. Turn the garment inside-out and apply the solvent to the underside of the heat applied material. This will dissolve the adhesive. Once you have applied the solvent, it is best to stretch or pull the area of the mistake. This will make the heat applied material start to peel off of the garment. Pull off the remaining letter. Remove any adhesive left on the front side of the garment by applying AlbaChem Vinyl Letter Remover to a clean white rag and rubbing off any residual adhesive. Repeat process if necessary. Vapor levels must be monitored to stay in compliance with OSHA regulations.

Packaging/Shipping Specifications:

Item No.	Package Size	Case Pack	Case Weight	Hazmat Information
1018	32 fl. oz. (0.95 liters)	12 Containers	35 lbs.	Consumer Commodity ORM-D

Physical Properties:

Appearance: Clear colorless liquid

Solubility in Water: No

Odor: Solvent

Chemical Family: Chlorinated Solvent Blend

Environmental:

Volatile Organic Compound (VOC): No – 0 grams per liter

Hazardous Air Pollutant (HAP): Yes

Ozone Depleting Substance: No

SARA 313 Chemicals: Yes – Dichloromethane

Consult material safety data sheet for all safety and handling information.
